

Compassion in Action

CAMP KELLY FOR KIDS

PROJECT OVERVIEW

Camp Kelly for Kids is designed for children and youth with a significant emotional disturbance or intellectual and/or developmental disorder who traditionally would not thrive in a standard summer day camp program. Outdoor recreational activities are combined with behavioral and therapeutic programming to teach and reinforce positive social skills and behaviors.

Our summer day camp program is specifically structured for kids who struggle within their school environment, home/family environment, and within the larger community. Camp Kelly for Kids develops a therapeutic environment that is specifically created for the children we serve and offers a fun, summer day camp experience to those children who may not otherwise have the opportunity due to ongoing behavioral issues and/or family financial constraints.

OUR MISSION

CNS Healthcare provides essential services and support to those affected by mental illness, substance use, intellectual / developmental disabilities, and emotional disorders.

We are committed to advancing integrated mental and physical healthcare and eliminating stigma through advocacy, education, and community outreach. We empower all children and adults served to become active and productive members of their communities.

TRANSFORM YOUR COMPASSION INTO ACTION

Transform your compassion into action and help CNS provide a day camp environment where children with significant emotional disturbance and intellectual and/or developmental disabilities can thrive, using outdoor recreational activities combined with behavioral and therapeutic programming to teach and reinforce positive social skills and behaviors.

THANK YOU
